Rocky Flats Field Office review of Draft Quarterly Report for Operable Unit 1
Interim Measure/Interim Remedial Action for January March 1994

R Zeke Houk Manager Operable Unit No 1
Environmental Restoration Management
EG&G Rocky Flats Inc

000030020

The Rocky Flats Field Office (RFFO) has reviewed and commented on the draft Operation Quarterly Report for January through March 1994 and the Draft Data Quarterly Report for October through December 1993 Comments and the annotated drafts were hand delivered to R Cirillo of EG&G on May 9 1994

The quality and content of these reports seem much improved and they also appear to answer the comments which have recently been made by the Environmental Protection Agency (EPA) in their letter of February 25 1994 We understand that two separate reports were prepared to answer and clarify the concerns of the EPA However we feel that the two separate reports should be combined to one report with two major sections This could be done by clearly stating and explaining the report contents in the front of the report We will also clearly state the contents of the report in our future submittal letters to EPA and The Colorado Department of Health This will avoid some potential confusion which could result in the Administrative Record caused by the Department of Energy submitting two separate reports every quarter

As was indicated in our letter of April 25 1994 (ER SRG 04653) the Final Report should be submitted to us within three weeks of receipt of our informal comments These comments were provided on May 9 1994 therefore the final report is due back to us on May 31 1994
